## WHEN THE WINTER WEATHER SETTLES IN...

### ABOUT CUSTOM LEATHER JACKETS

There is no dearth of ready to wear leather jackets in the market. However, they can never come at par with custom leather jackets designed according to individual needs. A good quality customized jacket fits perfectly as it is made according to a person's specific measurements. As opposed to jackets purchased off-the-rack, custom leather jackets are an absolute choice to portray your personal style.

The choice of leather and lining material allows you to enjoy the right level of coziness and makes your jacket as soft and warm as you like. You get to pick from fine quality materials, such as cowhide, goatskin, sheepskin or lambskin.

For lining, you can choose cotton, polyester, or nylon.

Quality construction of the jacket, such as the stitching and the tailored fit helps you stay comfortable no matter how long you need to wear the jacket. When you make your own leather jacket, the leather color, design detail, hardware and embellishments reveal your sense of fashion.

Durability is unquestioned in a customized leather jacket. It is made with top quality material, including premium leather, appropriate lining material, and quality hardware like buttons and zippers. Unlike mass produced jackets sold by fast fashion brands, a custom leather jacket is crafted by skilled artisans and lasts for a lifetime if maintained properly.

Poshele is a trustworthy name when it comes to men's or women's custom leather jackets. You can also get a stylish custom leather coat or any other type of jacket that you require.
